

UNIVERSITY OF MYSORE

A Project Report on

"SMART LEARNING MANAGEMENT SYSTEM"

*Submitted in partial fulfillment for the award of degree of
Bachelor of Computer Application
during the year 2025-2026.*

SUBMITTED BY

HARSHA HY

(U01BP25S0046)

DHANUSH GOWDA J

(U01BP25S0030)

Under The Guidance of

Ms. Supritha B

Assistant Professor

Dept. Of Computer Application

DEPARTMENT OF COMPUTER APPLICATION

GSSS SIMHA SUBBAMAHALAKSHMI FIRST GRADE COLLEGE

KRS Road, Metagalli, Mysuru-570016

CERTIFICATE

This is to certify that **Harsha HY (U01BP25S0046)** and **Dhanush Gowda J (U01BP25S0030)**, students of III Semester Bachelor of Computer Applications at GSSS Simha Subba Mahalakshmi First Grade College, Mysuru, have satisfactorily completed their project work entitled "**Smart Learning Management System**" under my supervision and guidance, during the academic year 2025-2026.

This project work is submitted in partial fulfillment of the course requirement for the award of degree in Bachelor of Computer Applications of University of Mysore.

I certify that this project is the original work of the above-mentioned students and has not been submitted elsewhere for the award of any other degree or diploma.

Ms. Supritha B

Assistant Professor

Dept. of Computer Application

GSSS SSFGC, Mysuru

Mrs. Nethra G

HOD, Dept. of Computer Application

GSSS SSFGC, Mysuru

DECLARATION

We **Harsha HY** and **Dhanush Gowda J**, students of III Semester Bachelor of Computer Applications at **GSSS Simha Subba Mahalakshmi First Grade College**, hereby declare that the project dissertation work entitled "**Smart Learning Management System**" has been carried out by us under the supervision of **Ms. Supritha B**, Assistant Professor, Department of Computer Applications, and submitted in partial fulfilment of the course requirement for the award of degree in Bachelor of Computer Applications of University of Mysore, during the year **2025–2026**.

We further declare that the report has not been submitted to any other University for the award of any other degree or diploma. The information and data presented in this report are genuine and have not been copied from any other source without proper citation.

We also declare that the Smart Learning Management System described herein is an original software project developed by us using Node.js, Express.js, SQLite, and vanilla HTML/CSS/JavaScript.

Dhanush Gowda J (U01BP25S0030)

ACKNOWLEDGEMENT

We sincerely owe our gratitude to all the persons who helped and guided us in completing this project work successfully.

We are thankful to **Mrs. Anupama B Pandit**, Secretary, GSSS SSFGC, Mysore, for her continuous enthusiasm, encouragement, and unstinting support throughout our academic journey.

We are thankful to **Dr. Rakesh T S**, Principal, GSSS SSFGC, Mysore, for having supported us in our academic endeavors and for providing all necessary facilities for the successful completion of the project.

We are thankful to **Mrs. Nethra G**, Assistant Professor & Head of the Department of Computer Application, for providing us timely suggestions, encouragement, and constant support to complete this project successfully.

We would like to sincerely thank our internal guide and project coordinator **Ms. Supritha B**, Assistant Professor, Department of Computer Applications, for providing relevant information, valuable guidance, continuous motivation, and encouragement to complete this project.

We would like to extend our deep sense of sincere gratitude to all the faculty members of the **Department of Computer Applications, GSSS SSFGC, Mysore**, for their support and inspiration.

Lastly, we would like to thank our parents and friends for their constant support, encouragement, and guidance throughout the course of this project.

Harsha HY (U01BP25S0046)

Dhanush Gowda J (U01BP25S0030)

ABSTRACT

The **Smart Learning Management System (Smart LMS)** is a web-based educational platform designed to simplify the process of managing and delivering course content to students online. Students can register, log in, browse courses, watch video lectures, attempt quizzes, and track their learning progress. Admins can manage course content, upload video links, create quizzes, and monitor student activity. The system uses **HTML, CSS, JavaScript** for the frontend and **Node.js, Express.js** for the backend with **SQLite** as the database.

INTRODUCTION

In today's digital era, online learning has become an essential part of education. The Smart Learning Management System provides an easy way for students and teachers to interact through a digital platform. Students can access course materials, watch lectures, and take quizzes anytime, while admins can manage content efficiently. The system uses a Node.js backend with a simple HTML/CSS/JavaScript frontend, making it lightweight and easy to use.

METHODOLOGY

The system is developed using **HTML, CSS, and JavaScript** for the frontend and **Node.js with Express.js** for the backend. **SQLite** is used as the database via the better-sqlite3 driver. Students register through a web form; the backend validates and stores the information. A student dashboard displays available courses, video lectures, and quizzes. Admins log in through a separate portal and can add, update, or delete course content and monitor student progress.

TECHNOLOGIES USED

- **HTML, CSS, JavaScript** – Frontend design and interaction
- **Node.js & Express.js** – Backend server and REST API
- **SQLite** – Lightweight relational database
- **better-sqlite3** – Node.js SQLite driver for database operations
